DETAILED ACTION

Examiner's Amendment

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

1. Authorization for this examiner's amendment was given in a telephone interview with Mr. Roy W. Truelson Reg. No. 34,265 on June 13, 2007.

Please enter the limitation of "regardless of the condition of any key variable specified as a condition of the conditional breakpoint" to the end of claims 1 and 11 after the last occurrence of "expected code path condition".

Allowable Subject Matter

2. Claims 1-20 are allowed.

The following is an examiner's statement of reasons for the allowance:

The examiner deem claims 1-20 as novel when read as a whole for the limitations of analyzing a computer program comprising the steps of: defining a plurality of breakpoints for said computer program, at least one of said breakpoints including a respective expected code path condition; and automatically halting execution of said program if said actual code path taken during execution of said computer program does not match the expected code path condition, regardless of the condition of any key variable specified as a condition of the conditional breakpoint.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

3. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. See PTO 892.
